LAYER UP

Using a layering system of clothing gives you more flexibility during your day so you can add and remove layers as needed depending on the weather and work conditions.

3RD LAYER/ OUTERLAYER:

Your outer layer is your last layer of defence to protect you from the elements. You want a garment with good waterproof rating and fully seam sealed.

We recommend:
 ZJ357 Ultralite Waterproof Jacket
 (For Warmer Climates)
 ZJ350 Storm Jacket (For Colder Climates)

2ND LAYER/ MID LAYER:

Your mid layer provides added warmth to your base layer. A perfect mid layer should be breathable and stretchy, providing unrestricted movement.

We recommend:
 ZT810 Stretch Micro Fleece ¼ Zip

1ST LAYER/ BASE LAYER:

Your base layer should be something that can be worn on its own if it gets too hot during the day. You want a garment that is breathable, moisture wicking and comfortable next to the skin.

We recommend:
 Any of our range of Syzmik Polos

ZJ590

• Two side hip access pockets

FIRE ARMOUR

FIRE ARMOUR

METATech® RED FLAME RANGE

The exclusive METATech® fabric used in the Syzmik's Fire Armour® Red Flame range provides revolutionary levels of inherent arc and flash fire protection at an incredibly light weight of 155 GSM.

METATech®

< Look out for styles with this logo

All the garments in Syzmik's HRC 1 rated FR range use the exclusive METATech® fabric to give unbelievably light 155gsm HRC 1 – 6 Cal protection.

ONLY FR RATED COMPONENTS USED

No corners have been cut when making the Syzmik Fire Armour Red Flame range as we take the performance of our products seriously. All products in the range use fully FR rated trims including, reflective tape, snaps, buttons, zippers and even FR heat seal logos.

DESIGNED TO MINIMISE EXPOSURE

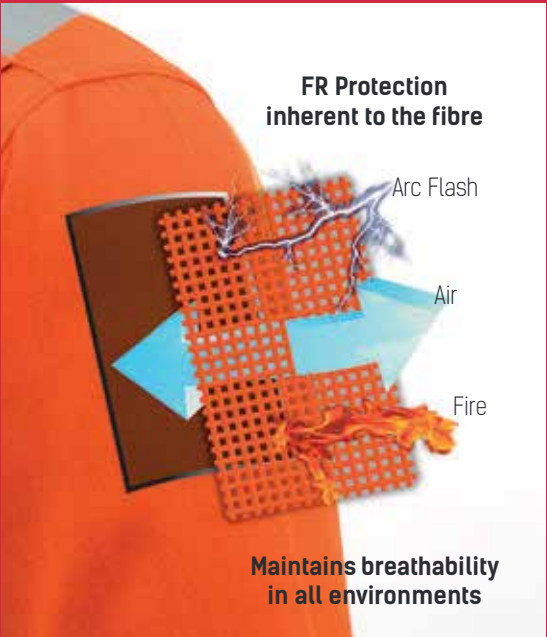

All products feature gusset sleeves that make it difficult for employees to roll up and wear incorrectly.

GARMENTS CAN BE REMOVED QUICKLY

The garments have also been designed to be quickly removed in case of emergency so we have used FR press studs on the shirts and an FR zipper on the overalls for quick removal.

INHERENT PROTECTION

The METATech® fabric is also importantly an inherent FR fabric and will never wear or wash out giving you peace of mind that as long as you are wearing it you are protected by Metatech fabric unlike some other treated FR options.

SUPERIOR COMFORT, INDUSTRIAL TOUGH

METATech® fabric solves the problem of heat stress by providing inherent certified HRC 1 – 6 Cal Arc flash protection and ISO 14116:2008 and ISO 11612:2008 flame protection at an unbelievably light 155 gsm weight.

Even though the METATech® fabric is lightweight it maintains great strength properties thanks to the use of para-aramid fibres throughout the blend. These fibres have also been used in products like Kevlar® because of its incredible strength to weight ratio.

KEY POINTS OF METATECH® FABRIC

- Lightweight and breathable 155GSM HRC 1 – 6 Cal protection
- Inherent FR characteristics that will never wash or wear out
- Tough enough to last the test of time with high abrasion and tearing resistance

MEETS STANDARDS

- ENA NENS 09- 2014
- NFPA 70E
- APTV 6 Cal rating
- ISO 14116:2008 3/5H/50

MODATech® ORANGE FLAME RANGE

The exclusive MODATech® fabric used in the Syzmik's Fire Armour® Orange Flame range gives high level of inherent HRC 2- 10 Cal protection in a fabric that is light, soft and amazingly cool.

MODATech®

< Look out for styles with this logo

SUPERIOR COMFORT, INDUSTRIAL TOUGH

At Syzmik we understand that an FR garment has to be cool and comfortable enough to wear or workers will simply not wear it.

To combat this we developed a fabric that provides outstanding comfort in a light 240 gsm fabric that delivers high level HRC 2 – 10 Cal arc flash protection as well as ISO 14116:2008 and ISO 11612:2008 certified flame protection.

KEY POINTS OF MODATECH® FABRIC

- Cool and comfortable 240GSM HRC 2 – 10 Cal protection Inherent FR characteristics that will never wash or wear out
- Soft to touch
- Tough enough to last

MEETS STANDARDS

- ENA NENS 09- 2014
- NFPA 70E
- APTV 10 Cal rating
- ISO 14116:2008 3/5H/50
- ISO 11612:2008 A1,B1,C1

ONLY FR RATED COMPONENTS USED

No corners have been cut when making the Syzmik Fire Armour Orange Flame range as we take the performance of our products seriously. All products in the range use fully FR rated trims including, reflective tape, snaps, buttons, zippers and even FR heat seal logos. Non FR rated closures can melt when exposed to flames, this makes the garment difficult to remove and puts the wearer at risk of greater injury.

DESIGNED TO MINIMISE EXPOSURE

The range has been designed to achieve minimal skin exposure so all products feature gusset sleeves.

GARMENTS CAN BE REMOVED QUICKLY

The garments have also been designed to be quickly removed in case of emergency so we have used FR press studs on the shirts and FR zipper on the overalls for quick removal.
